This document is a Google maps overview of our road, just to give you an overall idea of the HV Tree House property. It is set back away from the road and is very secluded. It really is a little oasis. The whole house is surrounded by trees, so when you're inside our home and look out the windows it feels like you're in a tree house! It has really caught on, our family and friends refer to our home as "The Treehouse" so naturally that's the name we choose to run with!
