FOR IMMEDIATE RELEASE

MARLBOROUGH, NY, 10/19/20 — Town of Marlborough is one of this year's Preserve New York (PNY) grantees. Their **grant of \$10,000** will fund a cultural resource survey of the Town of Marlborough Hamlets. The Preservation League of NYS and their program partners at the New York State Council on the Arts (NYSCA) are thrilled to help fund this important work.

Marlborough was first farmed in the mid-1700s and its historically important fruit-growing business persists today. The Marlborough and Milton commercial hamlets grew around water-powered mills at falls near the Hudson River, where river landings for shipping agricultural goods grew. Marlborough's historic commercial and industrial heritage is reflected by hamlet streetscapes including surviving stores, hotels, civic and institutional buildings, mill ruins, etc. The goal of this survey is for Marlborough property owners and agritourism visitors to enjoy benefits of improved protection, National Register listing, Historic Tax Credit-guided restoration, and greater awareness and stewardship for historical properties. A \$10,000 Preserve New York grant will enable the Town of Marlborough to hire Larson Fisher Associates to complete the cultural resource survey.

At its 2020 meeting, the Preserve New York grant panel selected **19 applicants in 15 counties to receive support totaling \$193,390**. Many of these grants will lead to historic district designation or expansion, allowing property owners to take advantage of the New York State and Federal Historic Tax Credits. With the announcement of the 2020 awards, support provided by Preserve New York since its launch in 1993 totals more than \$3 million to 457 projects statewide.

The Preserve New York grant program is a partnership between the New York State Council on the Arts (NYSCA) and the Preservation League, made possible with the support of Governor Andrew M. Cuomo and the New York State Legislature. PNY enables the Preservation League to support projects in all of New York's 62 counties.

Since 1993, the Preserve New York grant program has been providing funds to municipalities and nonprofit organizations that need technical, professional assistance to guide a variety of preservation projects. The historic structure reports, building condition reports, cultural landscape reports, and

cultural resource surveys that are funded through this program can have profound impacts on the sites they are studying.
