

The CAC continues its work but has no significant news to report. Some members will be attending a focus group presented by Ulster County's Department of the Environmental tomorrow at the Sarah Hull Hallock Library to collect data for a community centered climate action plan. Our next meeting will be held on Tuesday, June 18 at 6:30 at the Marlboro Library Community Room. Their summer schedule leaves us limited availability for the use of the community room. We hope our own community center will be available to use, or perhaps the Train Station for our future meetings.

*Respectfully submitted,
Mici Simonofsky, Chair pro tem*
